

## **Environmental Policy**

At Enviroconcepts, we take seriously our responsibility to care for and protect the environment in which we operate. We are fully committed to improving environmental performance across all our business activities and will encourage our business partners and members of the wider community to share that commitment.

Enviroconcepts recognises our potential impacts to be in the areas of: waste, raw material use, CO2 emissions & fuel consumption and contamination of waterways.

We will ensure our operations:

- Comply with legal and other requirements.
- Ensure management are actively involved and provide demonstrated leadership to support continuous improvement in environmental performance.
- Communicate and consult with all employees, to increase awareness of their environmental obligations and responsibilities.
- Strive to continuously improve our environmental management systems and practices through a process of auditing, review and revision.
- Investigate and ensure a prompt response to all environmental incidents and develop corrective action to prevent reoccurrence.
- A commitment to the prevention of pollution by establishing and implementing objectives and targets.
- Adopt best available practices for the reduction of emissions.
- Periodically review this Policy and procedures to maintain relevance.

We will respond to the environmental challenges in all areas of our business and communicate that it is the responsibility of every employee to implement this policy.
