CORPORATE STATEMENT

Enviro H2O produces advanced water/wastewater treatment solutions for businesses across Australia, and around the world. We specialise in above-ground, modular systems that can be deployed and installed quickly. Enviro H2O is also Australia's leading manufacturer of above-ground, structural washbays. When combined with our treatment plants, we offer turnkey solutions to several industries including mining, construction, agriculture, food processing, manufacturing, biosecurity, car wash and truck wash businesses, and equipment hire companies.

Our goal is to provide sustainable, innovative and high value solutions to conserve, reuse and recycle water.

COMPANY OVERVIEW

Enviro Concepts is an Australian business, owned by Enviro H2O Pty Ltd, servicing national and international clients. We manufacture and distribute a wide range of Water Treatment and Water Recycling equipment. We also provide innovative solutions for equipment wash down, decontamination and corrosion control with our portable wash down facilities.

Our services include Design, Manufacturing, Installation, Commissioning and Maintenance of all types of Water Purification and Waste Water Treatment Systems.

Our objective is to build packaged water management solutions to provide clean water and help clients meet their environmental and trade waste requirements.

Enviro Concepts specialises in 2 areas;

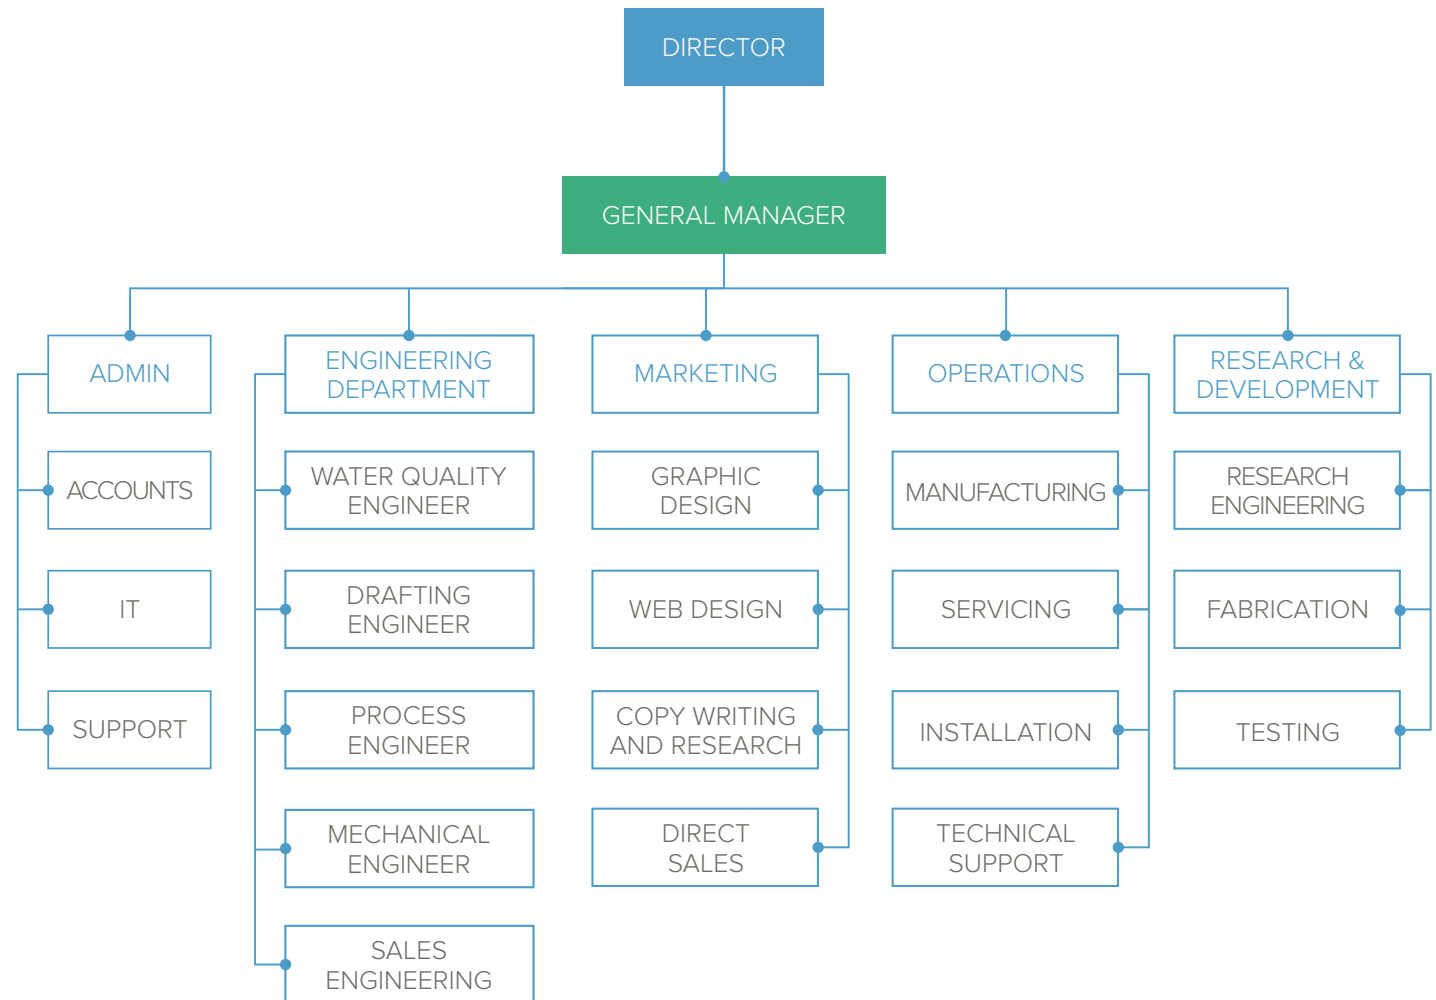

MODULAR WASH PADS | WASTEWATER TREATMENT

We provide systems for General Industry, Infrastructure Projects, Mining, Utilities and Government.

Enviro Concepts has implemented internal management tools to ensure system quality and efficient build times.

ORGANISATIONAL STRUCTURE

OUR TECHNOLOGY

Enviro Concepts uses proven technology and best practices to ensure that the engineering and manufacturing of our waste water treatment systems and portable washbay solutions are held at highest standards. This results in unmatched reliability. Our equipment and systems are designed to maximise operational performance and minimise maintenance and human involvement.

Enviro Concepts can develop and customise solutions from a simple carwash, to a large potable water treatment plant or a waste water treatment plant, complete with automated logic controller functions to run routine monitoring and maintenance. We have a dedicated R&D team that is constantly looking for opportunities to improve our systems, making them more efficient.

Our role is to make your "Solutions" our responsibility.

PRODUCTS

Enviro Concepts offers a wide range of products and services, to provide a complete solution for our clients. It can be a simple Oil Water Separator or a custom, containerised automated water management solution. Through our Unique Site Evaluation Process, we deliver targeted solutions that are cost effective and meet all regulatory and site specific requirements.

Most importantly, we deliver on time and budget, ALWAYS.

- Oil Water Separators
- DAF Systems
- EL Water Recycling
- Reverse Osmosis - UF Membranes
- Lamella Clarifiers
- Screen Filters
- PH Adjustment and Monitoring
- Portable Wash Pads
- Wash Bays
- Parts Wash
- Wheel Wash
- Wheel Bath
- Consumables & Chemicals
- Desalination and Water Makers
- Rain Diversion Systems

INDUSTRY APPLICATIONS

- Mechanical Workshops
- Parts Manufacturers
- Equipment Rental
- Quarantine Washes
- Marine Applications
- Transport
- Mining
- Golf Course
- Oil and Gas
- Fleet Maintenance
- Agricultural
- Car Dealership
- Food Processing
- Car Hire
- Government, Utilities and Infrastructure
- Dairy and Farm
- Service Stations
- Bitumen & Asphalt
- Parts Wash

BENEFITS

- 100% Recycle your Water
- Save on Discharge to waste
- EPA & Council Compliance
- Performance Guarantee
- Huge Water Savings
- Environmentally Responsible
- Cost Saving, Labour Saving
